PROFILE

I am a Software Developer from Oregon, mostly experienced in Frontend Development, with professional experience in backend technologies and personal experience in Game Development. I am always looking to expand my knowledge and my skill set both in software development and communication skills. I have worked in numerous different industries that have taught me communication skills, teamwork, and have allowed me to become a quick learner.

EDUCATION

University of Oregon, *B.S in General Science* 12/2020
